RESEARCH INTERESTS

My research interests center on why adolescents facing similar challenges differ in their developmental pathways and judgments: how family adversity relates to antisocial behavior, and how young people evaluate institutional responses to their behavior.

Sep 2022 – Feb 2025 **Institute of Psychology and Law | Dongguk University | *Advisor:* Dr. Eunkyung Jo**

Master's Thesis:

- Designed and conducted a 2 × 2 × 2 online experiment (N = 251) testing how defendants' socioeconomic status, stereotypically criminal appearance, and crime type jointly affect mock jurors' sentencing judgments.
- Developed and pretested AI-generated facial stimuli; analyzed data using factorial ANOVA and regression.

Assessment and Measurement Research:

- Evaluated the predictive validity of two stalking risk-assessment instruments (SRAT-I, SRAT-P) by coding and analyzing 288 case files from 18 police agencies; co-developed the instruments and scoring manuals.
- Examined the relationship between implicit and explicit evaluations of rape using a paper-based Implicit Association Test (IAT); coordinated study procedures and contributed to analyses and manuscript preparation.

Forensic Evaluations:

- Applied Statement Validity Analysis (SVA) in a Suwon District Court expert opinion on how developmental vulnerabilities (borderline intellectual functioning, suggestibility, disrupted attachment) related to an adolescent victim's exploitation risk.
- Co-conducted testimonial-validity assessments for two Seoul High Court cases: one evaluating an intellectually disabled victim's cognitive capacity, the other analyzing coercive-control dynamics in a homicide.
- Conducted a psychological autopsy examining relational and environmental factors preceding a soldier's suicide.

Computational Research:

- Led a Python-based text-mining study of public discourse on gaslighting using 5,000+ posts; received the Best Poster Award.
- Developed a corpus of 3,000+ statements coded using Criteria-Based Content Analysis (CBCA) for AI-assisted interview analysis.

Jun 2018 – Oct 2018 **Unity of Mind Analyst (Intercollegiate Psychology Society) | Seoul**

- Designed survey items, collected data (N = 399), and presented results on self-discrepancy and self-disclosure in Instagram users.
